

# IRA Recharacterization Request

Use this form to recharacterize any annual contributions you made to a Traditional IRA as an annual Roth IRA contribution, OR any annual contributions you made to a Roth IRA as an annual Traditional IRA contribution. Do NOT use this form to recharacterize ANY conversions or qualified rollover contributions made to a Roth IRA or Inherited Roth IRA, or to request a conversion. Recharacterizations are not available to nonresident aliens due to tax-withholding requirements. Type on screen or print out and fill in using CAPITAL letters and black ink.

## Helpful to Know

- The IRS allows you to treat certain IRA contributions made to one type of IRA as having been made to a different type of IRA. This is known as "recharacterization." You can recharacterize all or part of the contribution amount. Any net income attributable to the contribution also will be recharacterized.
- All recharacterizations of Fidelity IRAs are processed in kind. However, crypto positions cannot be processed in kind. If your IRA is linked to a Fidelity Crypto® IRA ("Crypto IRA"), you are responsible for ensuring that the appropriate amount of cash to recharacterize is available in your brokerage IRA.
- Per IRS Notice 2000-39, calculation of the applicable earnings is based on a pro rata portion of the earnings accrued in the IRA during the period the IRA actually held the contribution. If your IRA is linked to a Crypto IRA, any earnings or loss attributable to the contribution, if applicable, will be calculated across both accounts.
- Employer contributions to a SIMPLE IRA or SEP IRA cannot be recharacterized as contributions to any other IRA.
- The recharacterization request may not be modified or revoked after it has been processed.
- **Tax-reporting information:** The IRS refers to the IRA from which you are recharacterizing as the "First IRA," and the IRA to which you are recharacterizing as the

"Second IRA." A recharacterized contribution will be treated **for federal income tax purposes** as having been contributed to the Second IRA on the same date and for the same taxable year that the contribution was initially made to the First IRA. The taxpayer is responsible for reporting all recharacterization activity on IRS Form 8606, or as required by the IRS. Please see instructions for 8606 for further reporting information.

- Recharacterizations generally must be completed by the federal income tax filing deadline (including extensions) for the year for which the contribution was made to the first IRA.
- Complete a separate form for each transaction being recharacterized.
- All open Good 'Til Canceled (GTC) orders should be canceled prior to submitting this request. If a request is received that requires transferring a position with an open order, the order will be canceled. It will be your responsibility to replace the order on the receiving IRA account, if applicable.
- **Important to Note:** The Tax Cuts and Jobs Act eliminated the ability to recharacterize any conversions or qualified rollover contributions made to a Roth IRA in 2018 or after. For more information, consult your tax advisor or visit the IRS website.
