# Our Speakers

## Host

**Jim Armstrong**  
**Director, Fidelity Investments**

Jim Armstrong is a director with Fidelity's Client Solutions Business team. Prior to this role, he was a marketing director, focused on creating educational content for workplace participants to help with retirement planning and other financial wellness topics. Formerly, Jim distinguished himself as an Emmy-winning journalist, spending 17 years as a television reporter for network affiliates around the country.

## Special guest panelists

**Jurrien Timmer**  
**Director of Global Macro, Fidelity Investments**

Jurrien Timmer is the director of Global Macro at Fidelity Investments. In this role, he is part of Fidelity's Global Asset Allocation group, where he specializes in asset allocation and global macro strategy. Additionally, he is responsible for analyzing market trends and synthesizing investment perspectives across Asset Management to generate market strategy insights for the media as well as for Fidelity's clients.

**Leanna Devinney, CFP®**  
**Vice President, Branch Leader, Fidelity Investments**

Leanna Devinney is responsible for leading one of Fidelity's Investor Centers. In this role, she offers our clients financial and investment guidance, including one-on-one retirement planning, wealth management, income strategies, and college planning services as well as integrated employer benefits solutions.

The S&P 500® Index is a market capitalization–weighted index of 500 common stocks chosen for market size, liquidity, and industry group representation to represent U.S. equity performance. S&P and S&P 500 are registered service marks of Standard & Poor’s Financial Services LLC. You cannot invest directly in an index.

**Diversification and/or asset allocation do not ensure a profit or protect against loss.**

Stock markets are volatile and can fluctuate significantly in response to company, industry, political, regulatory, market, or economic developments. Investing in stock involves risks, including the loss of principal.

Foreign markets can be more volatile than U.S. markets due to increased risks of adverse issuer, political, market, or economic developments, all of which are magnified in emerging markets. These risks are particularly significant for investments that focus on a single country or region.

In general, the bond market is volatile, and fixed income securities carry interest rate risk. (As interest rates rise, bond prices usually fall, and vice versa. This effect is usually more pronounced for longer-term securities). Fixed-income securities also carry inflation risk, liquidity risk, call risk, and credit and default risks for both issuers and counterparties. Lower-quality fixed-income securities involve greater risk of default or price changes due to potential changes in the credit quality of the issuer. Foreign investments involve greater risks than U.S. investments, and can decline significantly in response to adverse issuer, political, regulatory, market, and economic risks. Any fixed-income security sold or redeemed prior to maturity may be subject to loss.

Illiquidity is an inherent risk associated with investing in real estate and REITs. There is no guarantee that the issuer of a REIT will maintain the secondary market for its shares, and redemptions may be at a price that is more or less than the original price paid. Changes in real estate values or economic downturns can have a significant negative effect on issuers in the real estate industry.

The commodities industry can be significantly affected by commodity prices, world events, import controls, worldwide competition, government regulations, and economic conditions.

Dollar-cost averaging does not assure a profit or protect against loss in declining markets. For the strategy to be effective, you must continue to purchase shares in both market ups and downs.

The CFP® certification is offered by the Certified Financial Planner Board of Standards Inc. (“CFP Board”). To obtain the CFP® certification, candidates must pass the comprehensive CFP® Certification examination, pass the CFP® Board’s fitness standards for candidates and registrants, agree to abide by the CFP Board’s Code of Ethics and Professional Responsibility, and have at least three years of qualifying work experience, among other requirements. The CFP Board owns the certification mark CFP® in the United States.
