Match your interests and objectives by exploring *thematic* ETFs.

In today's world, people are *taking action* every day to build a future they want to live in — from composting to driving electric vehicles.

You're already making a mark with your everyday choices, now you have an opportunity to align your investments with what matters to you — thematic investing can help.

Whether you support sustainable energy, innovative health care, hybrid work or electric vehicles, every passion presents an opportunity for investors to put their money towards building a better future.

Why it's important

Investors who personalize their portfolios to include investments that align with their values and personal passions can help ensure their investments will make a difference.

Fidelity is expanding its thematic ETFs offering with relevant themes that explore opportunities created by economic, social and technological developments so that investors can support the trends they believe in.

Derived from [Fidelity's global research experience and insights](#), here's an example of these top four themes.

01

Clean Energy

Fidelity Clean Energy ETF (FRNW)

An illustration featuring a solar panel in the foreground and a wind turbine in the background, set against a green background with a yellow sun. The solar panel is tilted and has six rectangular cells. The wind turbine has three blades and a central hub. The sun is a large yellow circle with a textured pattern.

Most of the world's current energy is produced from fossil fuels that emit harmful greenhouse gas emissions and continue to drive *global warming* — clean energy can help.

Energy revamped

Renewables are expected to overtake coal to become the largest source of electricity generation worldwide which will help dramatically reduce greenhouse gas emissions.

Get involved

FRNW [↗](#)

Fidelity Clean Energy ETF (FRNW) gives you the opportunity to actively play a role in building a cleaner future by investing in companies that distribute, produce or support the production of energy from solar, wind and other renewable resources.

02

Cloud Computing

Fidelity Cloud Computing ETF (FCLD)

Cloud computing has been *essential* in driving the digital transformation and revolutionizing the way we work, allowing teams to access data instantly wherever they are.

A winning workflow

As businesses migrate workloads to the cloud, the revenue growth attributed to cloud technology and data storage increases.

\$ **400** B

Worldwide cloud spending is expected to approach \$400 billion in 2022.²

Get involved

FCLD [↗](#)

Fidelity Cloud Computing ETF (FCLD) gives you the opportunity to back the innovation of groundbreaking cloud technologies that help create a scalable, flexible and productive workforce.

03

Electric Vehicles and Future Transportation

Electric vehicles (EVs) have gained traction as a more *sustainable* transportation option as they create a lower carbon footprint than cars using traditional fossil fuel.

Drive it forward

Demand from both governmental policy changes and consumers drives the growth of EV and future transportation market.

10X

Global EV sales to grow 10x by 2030.³

Get involved

Fidelity Electric Vehicles and Future Transportation ETF (FDRV) helps you go beyond purchasing and driving an EV by

04

Digital Health

Fidelity Digital Health ETF (FDHT)

Telemedicine and digital health are helping *improve* the quality and access to health care allowing patients to receive specialized care wherever they are.

The pulse of the future

The digital health market is expected to rise at an accelerated pace as the health care industry continues to digitize its processes.

160%

The digitally connected health care market is expected to grow 160% from 2020 to 2025.⁴

Get involved

FDHT [↗](#)
