NAVs shown are as of immediately prior to the merger.

Merger Ratio is the number of Acquiring Fund shares received per one Acquired Fund share surrendered.

Effect on Basis

<u>In General</u>. Each shareholder has an aggregate basis in Acquiring Fund shares received in the merger equal to the aggregate basis of that shareholder's Acquired Fund shares surrendered in the merger.

<u>Average Basis Shareholders</u>. For a shareholder using the average basis method, his/her basis immediately following the merger in a particular Acquiring Fund share received in the merger equals his/her aggregate basis in all Acquiring Fund shares held immediately following the merger (including the basis carried over from the Acquired Fund shares surrendered in the merger) divided by his/her total number of Acquiring Fund shares owned.

Non-Average Basis Shareholders.

For a shareholder who does not use the average basis method but had the same basis in each of his/her Acquired Fund shares immediately prior to the merger (i.e., because his/her Acquired Fund shares were purchased at a single price in a single transaction), the basis of each Acquiring Fund

- Investor Class share received is equal to 92.13468989% of the basis of each Acquired Fund Investor Class share surrendered.
- Premier Class share received is equal to 91.99987386% of the basis of each Acquired Fund Premier Class share surrendered.
- Institutional Premium Class share received is equal to 92.02719845% of the basis of each Acquired Fund Institutional Premium Class share surrendered.

A shareholder who did not have the same basis in each of his/her Acquired Fund shares determines the basis of each of his/her Acquiring Fund shares received in accordance with Treas. Reg. section 1.358-2.

Shareholders should consult IRS Publication 550 and their tax advisors for more information. 641978.82.0
